

PROMISES NO
QUICK RELIEF.New Socialist Milwaukee
Mayor on Deck.Workingmen Must Wait, He
Says, for Results."Will Do Nothing Revolution-
ary," He Declares.

[ASSOCIATED PRESS NIGHT REPORT.]

MILWAUKEE (Wis.) April 6.—The first step of the Socialist-Democratic party will be to assume the people and relieve their minds of apprehension that our victory means the entire overturning of business in this city," said Emil Seidel, Milwaukee's newly-elected Socialist Mayor. "There will be no Utopia, no millennium, none of the wild antics that our opponents have charged to us. There will be no party bosses, no one-man policy."

"When we decide on a course to pursue there will be conferences with the other Socialists elected and the best lines will be followed. We shall give everyone in the party a chance to be heard and to voice his opinions. Our plans are now in an embryonic condition so I cannot discuss them at length."

AS TO CORPORATIONS.

"As to corporations, we shall make them pay their share of the taxes and improve the lot of the workingman. We will do nothing revolutionary—nothing that would turn the tide of sentiment against us. If any question arises which the administration can't handle, we will refer it to the electorate as a whole."

"After all, they are the only bosses. Socialism has been given a chance to show its merits. We can do this by insistent and consistent conservatism."

"In a way we are on trial and will show the people of what metal we are made."

This election was not the result of one campaign. It is the victory that comes to a cause after twenty-six years of the hardest kind of work. We have flooded this town with literature and have had men on the stump in and out of season, educating the workmen to the opportunities that lay before them."

NO QUICK PANACEA.

"We have not promised the workingmen or the city at large an immediate panacea for ills. We have promised the best government that we can give, and we are going to live up to that promise."

Victor L. Berger, whose reputation as a Socialist leader extends throughout the country, had this to say about the election:

"This victory marks a new epoch in American history and any man or woman who has helped to bring it about, will naturally feel proud. This is nobody's personal victory. It is not Seidel's; it is not Berger's; it is not the victory for principle, a victory for progress—a little better government, a little better civilization. It is the result of many years of hard work for the education and enlightenment of the working class of Milwaukee."

TO LAUNCH HARMON BOOM.

Illinois Democratic League Banquet Will Furnish Occasion—Ways Well Chosen, Said.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, April 6.—[Exclusive Dispatch.] At the Jefferson banquet of the Illinois Democratic League at the Press Club of Chicago tomorrow night will be launched one of the earliest of Presidential booms for 1912. It will be that of Judson Harmon, Governor of Ohio, whose name it is announced by leading members of the league, will be properly run down the well-groomed ways to the deep waters of national politics.

John E. Lamb, vice-chairman of the Democratic National Committee, will be the principal speaker. Other speakers will contribute to the oratorical entertainment are Col. J. Hamilton Lewis, Congressman from California; Judge Francis Adams, William J. O'Connell and Orva G. Williams.

At the psychological moment the chairman of the banquet will read a letter from Gov. Harmon, which, it is predicted by Maxwell Edgar, will cause the "rings" to ring.

A special feature of the dinner will be its entirely cosmopolitan character. All nations of Europe—or very nearly all—will find representation on the list of speakers.

NORTH POLE ANNIVERSARY.

Marion, Ind., Congratulated Upon Entertaining Peary on Date of His Discovery.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, April 6.—Gen. Thomas Hubbard, president of the Peary Arctic Club, in recognition of the first anniversary of the discovery of the North Pole by Commander Peary on April 6, 1909, sent the following telegram to the president of the Chamber of Commerce of Marion, Ind., where Commander Peary speaks to-night:

"The Peary Arctic Club congratulates the Marion Chamber of Commerce on its opportunity to hold first annual celebration of the discovery of the North Pole. It lends you Peary for this date only and invites you to join its later celebration of historic event."

RAPID TRANSIT FOR MAIL.

Inventor Has Scheme for Unloading Passengers from Railroad Trains Going at Fast Speed.

[ASSOCIATED PRESS DAY REPORT.]

WASHINGTON, April 6.—Rapid transit, as it perhaps had never been dreamed of by any other one man, has been offered to the Postoffice Department by an Effingham, Ill., inventor. This inventor has a scheme to run a railroad train at the rate of eighty miles an hour for 500 miles without stopping, which he asserted would unload passengers, mail and baggage meanwhile. His device would whirl the most delicate passenger out of the car and into the station without lessening the speed of the train or injuring the passenger. It would do the same with mail, he said.

On the ground that Congress gave to the Postoffice Department no authority to buy railroads, the inventor has been declined, but the inventor has written to President Taft offering free use of the scheme, and

who confessed identity as notorious
postoffice robbers when arrested,
but who yesterday denied their
identity.THEY RESIST
EXTRADITION.POSTOFFICE ROBBERS BECOME
SILENT SUDDENLY.Fay and Harris So Piqued When
Arrested They Could Not Resist
Congratulating Their Captors and
Admitting to Their Identities—Now
They Realize Their Mistake.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, April 6.—Those now silent individuals, known to the police and Federal officers as "Eddie" Fay and "Little Dick" Harris, charged with the robbery of the Richmond, Va., postoffice, in which more than \$30,000 was obtained, were so piqued after their arrest that they could not resist congratulating their captors and admitting their identity, according to the testimony of post-office inspectors at the arraignment of the prisoners in New York today.

Now they are indignant when referred to as Fay and Harris. The two alleged burglars virtually confessed shortly after their arrest, so the inspectors testified, and upon this the government will largely build its case to force the extradition, which the prisoners are bitterly resisting.

Inspectors J. C. Koons and J. B. Roberts of Washington were the witnesses who told of the confession.

Roberts testified in an interview at police headquarters that the prisoner who calls himself Frank Chester, but whom the police declare to be "Little Dick" Harris, told him of the robbery had done a remarkable piece of work in making the capture, and asked how the officers were able to trace them so quickly from Richmond to New York.

Koons said when he called at the Tombs, the prisoner who insists he is Frederick Cunningham, had been identified by the New York police as the daring Eddie Fay, said:

"I'd like to know how you traced those trunks from Richmond to New York."

"I told him," said Koons, "we obtained an accurate description of them from the negro who drove them to the Richmond depot, and followed them quickly after that."

"Fay said to me: 'We made a mistake in getting them out of Richmond so soon. Before getting the trunks away, we should have had an automobile.'"

"During the same interview," the inspector continued, "I asked Fay what was in the bottle we found in the trunk with the extra fine set of safe blowers' tools. He replied: 'I've been a little worried about that. That's nitro glycerine. You'd better get rid of it before it does any damage.' I poured the nitro glycerine down a waste pipe of a sink in this building."

THE CLIMAX
OF SUCCESS.Largest Business of Biggest
Newspaper in the
World.

One hundred and thirty-five columns of advertising yesterday. And 144 columns of advertising day before yesterday!

That was the business done by the biggest newspaper published in the world—The Times. These were the two highest marks for the regular midweek issues of this journal—the greatest volume of advertising it ever carried on any day not Sunday in any regular issue.

"Feeding the snake," as the Municipal League organ said: That is the way the local public does it. Why do advertisers advertise? Because they get returns. That is why they "feed the snake." Huh!

TOO GENEROUS.

TREASURY SIXTY
THOUSAND SHY.CITY'S CASH LOANED TO FRIENDS
BY OFFICIAL NOW DEAD.

W. J. Baehr of Kansas City, Who Died Suddenly Recently, Substituted Personal Papers for Money. No Criminality Involved, as Estate Will Cover Discrepancy.

[BY DIRECT WIRE TO THE TIMES.]

KANSAS CITY, April 6.—[Exclusive Dispatch.] William J. Baehr, who was City Treasurer, and candidate for reelection and was found dead in bed a week before election, is said now to have been short \$60,000 in his accounts at the City Hall.

This information has been given to the surety company which was on Baehr's bond. There is no evidence of criminality, but a shortage exists as a result of irregularities in the handling of funds.

The Controller recently announced that the books were regular, and it comes as a surprise that anything should be found wrong. The evidence, it is said, indicates that use of cash from the treasury safe and cash drawer for other than public purposes, but Mr. Baehr charged himself up with \$65,000, and a discrepancy in the cash book as cashed on hand.

The cash usually held on hand for the transaction of the daily business and deposited in their bank account to about \$100,000. It is understood that Mr. Baehr's estate will be sufficient to replace the money borrowed from the cash accounts in this way. It is estimated that the estate is worth about \$85,000, and a discrepancy in the cash book as cashed on hand.

Mr. Baehr was known to be generous in lending money to his friends, and it is supposed that he made use of some of the city's cash for this purpose.

PRACTICAL DEMONSTRATIONS.

This Meeting of New York Aldermen
Not Exactly Boisterous to Teach the
Young Idea.

[ASSOCIATED PRESS DAY REPORT.]

NEW YORK, April 6.—The teachers of civil government in New York High Schools have decided that practical demonstration of that study by visits to the sessions of the New York Aldermen are unwise. The first experiment in "practical demonstration" was tried yesterday, with a large delegation of girl students from an uptown High School. Among the interesting things which the students heard was the challenge of one Alderman to any who thought he could be intimidated to come outside.

The representative of a Brooklyn district was the bellicose member in denunciation of the Tammany Hall majority on the board, he said:

"I don't intend to submit to their end and affront any longer. I am going to assert my manhood, and if anybody thinks he can intimidate me, he can meet me outside, and I will show him whether I am afraid of him. There was a spirited reply by one of the Tammany members.

"I hope the good Lord will spare the last speaker," said the Tammany man. "Barking dogs don't bite, they say, and I don't anticipate any trouble outside, but now that my Brooklyn champion has asserted his manhood, if there is anything coming off, I'd like a chance to officiate."

"It cured me," or "It saved the life of my child," are the expressions you hear every day about Chamberlain's Cough, Cholera and Diarrhoea Remedy. This is the true world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's Cough, Cholera and Diarrhoea Remedy is that it cures. Sold by all dealers.

LOUIS BEDELL, LOBBYIST.

DIGS TRANSPORTATION EXPERT FROM INSURANCE FIRM'S BOOKS.

[ASSOCIATED PRESS NIGHT REPORT.]

NEW YORK, April 6.—William H. McGillicuddy, State Superintendent of Insurance, through the books of a firm which failed in 1904, uncovered a new trail of the acceleration of insurance legislation at a brief session of the fire insurance inquiry to be held here today.

He discovered that substantial sums, according to the records of this commission and been accredited to various members of the Legislature between 1904 and 1905 at times when bills accelerating New York transportation commission were up for consideration at the Legislature.

The only legislator whose name he had, however, was that of Louis Bedell, formerly Assemblyman from the 10th district.

On April 23, 1901, the day the Legislature adjourned, "some one," as Mr. McGillicuddy put it, deposited \$900 with the firm to Bedell's credit. Other entries showed many payments to and withdrawals from Bedell's account up to March 16, 1900.

Senator Louis F. Goodsell introduced a bill conferring a valuable franchise on the New York Electric Vehicle Company, since taken over by the Metropolitan Securities Company. It was put through both houses under suspension of the rules.

Mr. Bedell, according to the record, made the necessary motion in the House on which the bill was finally passed in that branch.

"GO AWAY! SHOO! SCAT!"

Divorced Wife of Pittsburgh Millionaire Refuses to Be Interviewed in Chicago Hotel.

[BY DIRECT WIRE TO THE TIMES.]

CHICAGO, April 6.—[Exclusive Dispatch.] Mrs. Genevieve Chandler Phipps, the divorced wife of the Pittsburgh millionaire, Lawrence C. Phipps, is in Chicago at the Congress Hotel. Ensnared behind a large screen in room No. 1022, she definitely refused herself to all today.

Mrs. Phipps was reported to have become reconciled to her former husband. She declined to deny or admit it; in fact, she confined herself in the main to a terse "Go away!"

"Come in," Mrs. Phipps said in reply to a knock on the door.

A hasty glance around the room failed to reveal anything but the furniture and a huge screen.

"Well, what is it?" floated a voice from behind the peacock-painted wall

little louder as the caller hesitated. "Go away; get out! Shoo! Scat!" finally came the order.

Mrs. Phipps is on her way to her home in Denver from Pittsburgh. She was accompanied by her two daughters, Helen and Dorothy. They spent a few hours shopping in State street and then returned to their hotel.

AMERICAN SCULPTOR FINED.

Pittsburgher Gets Gay at Artists' Ball and Resists Officers—Cost Him \$40 and Six Months.

[ASSOCIATED PRESS NIGHT REPORT.]

PARIS, April 6.—Edgar MacAdams, a sculptor, of Pittsburgh, was fined \$40 and sentenced to six months' imprisonment today on the charge of having resisted a police-officer. The sentence of imprisonment was suspended during the good conduct of the accused.

Mr. MacAdams recently attended a ball given by the Academie Julian and a society of painters and sculptors, and during the evening became involved in a quarrel which led to his arrest.

POISON USED TO COLOR IT.

CHICAGO, April 6.—Five carloads of macaroni, said to have been shipped to Chicago by manufacturers in St.

PITTSBURGH GRAFT.

(Continued From First Page.)

of the largest industries of its kind in the country, recently figured prominently in the public eye while a strike was on at his plant in McKees Rocks. During the long months of suspension there were many riots, many persons were killed and the State troops were called out.

The reference to the alleged plan to have Attorney Blakeley act as a stakeholder in as brief in the report of the grand jury, as it is in abstract given above, and the District Attorney tonight would not comment for publication upon it.

The court ordered indictments drawn against Hoffstot, in accordance with the grand jury's presentment, namely, on two counts of bribery, and one of conspiracy to defraud the city.

TO EXTRADITE IF NECESSARY.

The presentment reads that Hoffstot shall be ordered to appear as a witness and in case he does not do so, the District Attorney "proceed forthwith to extradite him."

The presentment concluded with an order that the investigation continue

pearance in Judge Fraser's court, James Anderson, the general bookkeeper of the Workingmen's Savings and Trust Company of Allegheny, had also pleaded nolle contendere to a charge of falsifying the books of the bank in connection with the payment of \$30,000 to Einstein. The pleas of Winter and Anderson came opportunely, for the District Attorney said otherwise they were to have been indicted today.

Anderson, who for twenty years has been a private secretary to President Winter, was charged with having cut from the bank's ledger several pages on which were "special accounts" of Emil Winter and Mrs. Winter. The District Attorney said the missing pages were later found by State Bank examiners Shaffer and McBurnie, who were present before the grand jury as witnesses last week. Anderson waived a hearing on the charges.

Winter is a man of 60 years, who has worked himself up from a local barber shop.

The foundation of the Hoffstot fortune was laid when the leather industry was one of the chief trades in Pittsburgh.

SPECIAL PRAYERS FOR WICKED PITTSBURGH.

[ASSOCIATED PRESS DAY REPORT.]

a day to be observed by Episcopallians throughout Allegheny county, "with special prayers and sermons on civic righteousness," corporate repentance and confession, intemperance and political chicanery, graft and fraud—on any topic, indeed, which bears on the present deplorable situation in Pittsburgh."

The bishop has sent long notices to this effect to all the clergy of the diocese and suggested a series of special prayers, which he has prepared. Portions of the petitions are:

"O, Lord, the great and dreadful God, who keepeth covenant and mercy with them that love Thee, and to them that keep Thy commandments, we come to Thee confessing our own sins and shortcomings and those of the people among whom we dwell. We have sinned against Thee and our neighbors. But, O Lord, our God, let Thine anger be turned away from this city and people. Turn our hearts unto Thee in true repentance and amendment of life."

"Prosper every interest, commercial, intellectual, moral and religious. Direct and guide all who fill the municipal offices and give them strength to execute the laws impartially and fearlessly. Save this whole community from political corruption, greed, intemperance, lawlessness, the violation of the Lord's Day, the violation of the sanctity of marriage and every false way."

SPORTING NEWS, LOCAL AND TELEGRAPHIC.

MANY PASSES
BEAT STOVALL.

Beavers Get Runs by Help of
Heaver's Wildness.

McCredie Cinches the Victory
by Hard Swats.

Kit Brashcar Furnishes the
Fielding Features.

Portland, 6, Vernon, 3.
If Hap Hogan should but hit 133
this year, he would be over by a
margin of 100 runs. Hogan was the
pennant race because Martineke, Fisher
and Hitt jumped to some outland
league, he would always believe that
the only hard luck he ever had in his
life was in losing that game yesterday.
When easy grounders
bounced over the heads of the infielders
and score runs, it is time to think that
somewhere there's a Jonah a hangin'
round.

Hogan stuck in Stovall to leave and
if he had done nothing but that, he
might have won, but he evidently tried
to practice with some new kind of a
curve and the hard-headed ump called
this strange one a "ball." Jess hung
a lot of them, for he gave no less than
eight passes in the last five innings
of the game. He got some over but
generally when he tried to slip one of
these across it was hit back at him at
a mile a minute.

There were but seven hits, but they
generally came after Stovall had
passed a couple of men. This is what
happened in the fourth inning. For
when Stovall had walked Olsen and
Casey in succession, McCredie smacked
the center fence with a double that
scored Olsen and sent Casey to third.
Then short fanned and Gus Fisher
followed with an easy grounder to
ward short and as Lindsey stood waiting
with hands outstretched to receive it,
the ball hopped over his head into the
left field, and could be seen to
recovered Casey and McCredie had
scored. This is the kind of luck that
the Vernons were up against yesterday
and it does not take long to guess
why they were skinned.

Seattle did the thing for Portland
and while he is no man-ether he kept
the warts scattered so that the Ver-
nons could not do more than be re-
fused to lead the way and when the
Beavers made almost every
poke count for a run, the Vernons
seemed to lose heart. They got their
first run on a hit by pitcher, an out,
and a single, and the second on two
singles, an out, and a steal, and the
third on a double, single and an out.

After Portland's fourth, the next one came in the sixth
on an error, a pass, a single, and a
sacrifice and the Vernons were
down to two. Then came a sacrifice,
a pass, a sacrifice and a fielder's
choice. It seemed very easy but the
good-land crowd enjoyed the sport.

The score: VERNON.

ANGELS LOSE IN
PITCHERS' DUEL.
Fitzgerald Has Better of
Tozer at Capital.

Dillon and His Men Catch Up in the
Ninth, But Howard Was Caught at
Third in Pretty Double Play After
Cap Had Scored—Perry's Single
Decides It.

BY DIRECT WIRE TO THE TIMES.
SACRAMENTO, April 6.—[Exclusive
Dispatch.] In a pitchers' duel, lasting
eleven innings, Jack Fitzgerald of the
Senators triumphed over Tozer of the
Angels this afternoon by a score of
2 to 1.

Barney Oldfield and Jimmy Coffroth,
riding in the Knox racer on the Motordrome, yesterday afternoon.

CALIFORNIA ATHLETES MAY BE
SENT TO NEW ORLEANS MEET.

THE local branch of the A.A.U. may
hold a Southern California cham-
pionship track and field contest
within a month for the purpose of se-
lecting representatives to be sent to
compete in the national championships
to be held at New Orleans.

The college and high school track
meets of this season have developed
several remarkable athletes, who, in
the opinion of athletic authorities,
would stand an excellent chance of
winning honors in the national com-
petition.

Fred Thompson of Occidental, Fisher
of Pomona, and Throp, Trotter and
Richardson of U.S.C. in the collegiate
class, Ward of Poly, "Mickie" McClure
and Simpson of L. A. High and Olm-
stead of Harvard are mentioned as the
most likely candidates for the south-
ern team.

Throp is undoubtedly the most
probable winner in the larger com-
petition of any of the bunch, for he has
made more remarkable records in the
dual and conference meets. His time
at the recent Stanford meet was dis-
counted because the runners had to
compete against a hard head wind
which blew down the stretch greatly
hindering the speed of the men.

to Start Tomorrow.

Oldfield-De Palma Match Is
Banner Auto Race.

A.A.A. Officials Arrive for
Opening in Force.

Allen E. McMurtry, chairman of the
Tennant Committee of the Auto-
mobile Association of America, S. B.
Stevens, a member of the Contest
Board, and Fred J. Warner, who has
acted as starter for the three A's in
every important meet recently, ar-
rived here yesterday afternoon to
compose the advance guard of the vis-
iting members of the A.A.A., who are
to attend the Motordrome automobile
race, S. M. Butler, chairman of the
Contest Board, is to arrive today.

Soon after reaching here these men,
with James Coffroth were taken to the
Motordrome in automobiles. It was
their first view of the big track and
they were pleased. Coffroth was driven
around the boards at speed with Bar-
ney Oldfield. He enjoyed the ride and
gave it as his opinion that the Moto-
drome course is the safest automobile
race track in the world.

Wagner and Stevens also were taken
around the boards. The track, they
said, is almost as fast as a straight-
away and is certain to revolutionize
auto track racing. All records from
one to 100 miles are bound to be
broken here. They will remain
here until the last of the races.

C. H. Warner, president of the A.A.A.,
has been in the city for some time
and is to be in charge of the meet.
There is to be no foolishness about
the matter and the crowd will know
just what is doing after every event
is run.

Time will be taken from 1-4 of a kilo-
meter to a mile. Records will be of-
ficial. The machine prints the time on
a slip of paper as the car rushes
past. There is no question
as to accuracy or difference in the
time of several watches. There is no
question of time and no chance for a
dispute.

The clock will register 1-100 part
of a second. This is binding the
race down to a fine enough point.
Warner will be on hand to take
charge of the time, as it needs an
expert hand to properly
the invention of the speedometer man
and has been used successfully at sev-
eral of the big race meets in this
country.

Almost everything is in readiness
for the meet. The ticket office and
band stand are finished.
No sensation is being made
by the driver, seems anxious
to keep the performance of his ma-
chine a secret. George Robertson
sent his simple car around the course
under 40, but this does not excite
comment, as better time has been
made by other drivers.

Robertson is one of the great
drivers. His work at the track shows
him to be a first class driver.
He is perfectly balanced. It is interesting
to watch the man who has met the
biggest racers of the day and has de-
fied them all. Robertson has won more road
races than any other man in this country.

DOPE SHEETS.
Dope sheets are hard to make up at
present. It is almost impossible to
get a correct line on Robertson, who
is doing only fairly well, but who cer-
tainly has plenty more speed in his
car than he is showing. It is hard to
estimate of Robertson's speed can be
made before the race, as most of his
practice stunts are pulled off when
the track is practically deserted.
Caleb Bragg spent the day working
on his flat "Ninety." The car was
plenty smooth and every working part
examined. It will be in running order
again today, but will probably not do
as well as yesterday.

Bragg will go against time. This car
has done remarkable time on the Moto-
drome. It has shown greater speed
than was thought possible for any car
but the Benz.

AT MOTORDROME.
Arthur Miller, Warren-Detroit;
Lanthwaite, Firestone-Columbus.
Ten miles, stock chassis, class C, di-
vision 5, 451-600 cubic inches displace-
ment: Harris Hanush, Apperson;
Ralph De Palma, Flat; J. B. Marquis;
Isotta; Barney Oldfield, Knox; Al Liv-
ingston, Stoddard-Dayton; Ray Har-
rison, Marmon; Frank Siefert, Dorris;

RAILROAD BILL IS COMING UP.

Will Be Taken Up by the Senate Monday.

Final Action to Be Urged by Its Supporters.

Senator Elkins's Notice Is Favorably Accepted.

(Associated Press Night Report.)

WASHINGTON, April 6.—The Senate will take up the railroad bill in earnest next Monday, Senator Elkins in charge of the measure, gave notice today that immediately after the conclusion of routine business on Monday, he would ask to have the bill proceed with, and the voting being when it developed no one was prepared to make a speech.

The notice was the direct result of a suggestion from Senator Clapp of Minnesota. When, at 2 o'clock today, as usual, Mr. Elkins was about to ask that the railroad bill be temporarily laid aside because no one was prepared to speak upon it, Mr. Clapp interrupted with the suggestion that Mr. Elkins would insure a better attendance of Senators, prompt speeches and the more expeditious disposition of the bill by notifying the Senate that he would press the bill tomorrow.

Mr. Clapp said that if the measure were pursued, the minority Senators would insist upon a vote in the absence of speeches.

Mr. Elkins replied that a number of Senators had left the city with the understanding no vote should be taken on the bill or amendments during the week.

The notice for Monday was generally favorably accepted and Senator Clapp on the Republican side, and Senator Clay on the Democratic side, expressed the opinion the measure would have a better final action on the bill.

AUTO SCARS DUELLISTS.

Texas Exchange Wild Shots to Settle an Old Grudge of Twenty Years' Standing.

(By Direct Wire to The Times.)

OKLAHOMA CITY (Okla.) April 6.—(Exclusive Dispatch.) Meeting by appointment in a field near this city this morning, E. E. Daniels of Austin, Tex., and J. S. Archer of Beaumont, Tex., each fired two shots from Colt's revolvers at a distance of fifty feet.

An approaching automobile frightened the men and they fled from the scene before any damage resulted.

All the bullets fired went wild. The men met to settle an old grudge. The quarrel started originally in Seacombe, Kan., twenty years ago, where the men were partners in a land deal.

Last evening both men met in this city by accident. The quarrel was renewed and the duel finally agreed upon to settle their differences.

MEDIATION IS ACCEPTED.

Quarrel Between Southern Railroad and Telegraphers Submitted to Arbitration.

(Associated Press Night Report.)

WASHINGTON, April 6.—A deadlock having been reached in the negotiations between the Southern Railroad and its telegraphers relative to a new agreement for another year, their differences will be submitted to Chairman Knapp of the Interstate Commerce Commission and Dr. Charles P. Neill, Commissioner of Labor, as mediators under the Erdman act.

The company requested Federal intervention; the telegraphers signifying their willingness to accept it.

When the deadlock was reached, a strike vote was taken. The telegraphers claim a sufficiently large vote was polled to authorize a strike. No strike action will be taken pending the result of the mediation.

The operators demand an increase in wages and a number of changes in the rules.

HARVARD CADETS WIN.

The Harvard Cadet Rifle Corps defeated the team from the University of Michigan by the score of 174 to 143 yesterday. Every man but three of the local gunners made a higher score than that of the highest man on the Redlands squad. The scores:

HARVARD.

APPLAUSE AND LAUGHTER.

ROOSEVELT COLLECTION IS WORLD BEATER, SAYS MANN.

(Associated Press Night Report.)

WASHINGTON, April 6.—"The collection of African specimens made by the Roosevelt party," said Mr. Mann of Illinois, in presenting to the House today a letter from the ex-President, making a preliminary report to the Smithsonian Institution, "undoubtedly is the most complete and valuable in the world, and it will be of great service to naturalists and scientists."

Applause from all parts of the House greeted this statement. It was interrupted, however, with derisive laughter.

During the reading of Mr. Roosevelt's letter there was considerable confusion and Mr. Fitzgerald of New York demanded better order so that the reader might be heard.

The letter was one sent to Secretary Walcott of the Smithsonian Institution, and it is former President Roosevelt's collection of African specimens.

After detailing the parts of the country the different members of the expedition had visited, Mr. Roosevelt enumerated the names of various specimens obtained. The total is 11,394 creatures, including birds, mammals, 4,000 birds, 2,000 reptiles and batrachians, and 500 fishes. In addition to these there was a considerable number of invertebrates.

The collection includes several thousand plants and a large number of marine and fresh water shells, crabs, beetles and millipedes. It is doubtful whether any other expedition into Africa ever succeeded in collecting as great a number of specimens.

Two East African bongos, two new species of antelope and a new species of monkey, secured by John Jay White in British East Africa, in the summer of 1904, have been added to the collection.

WASHINGTON, April 6.—At a meeting of the Buffalo Road Drivers' Association today it was decided not to hold a Grand Circuit meeting here this summer. The decision was reached, it is said, because of the financial failure of last year's meeting, which, owing to the anti-trust laws of this State, was held on the Fort Erie, Ont., track.

Results at Paris.

PARIS, April 6.—W. K. Vanderbilt's Serpentine won the Prix Kendall in the races at Tremblay today. Karmel, driven by Ross Adams, finished third in the Prix Tremblay.

No Races at Buffalo.

BUFFALO, April 6.—At a meeting of the Buffalo Road Drivers' Association today it was decided not to hold a Grand Circuit meeting here this summer. The decision was reached, it is said, because of the financial failure of last year's meeting, which, owing to the anti-trust laws of this State, was held on the Fort Erie, Ont., track.

BARRY GETS BUSY.

THINKS HE IS A TAILOR.

Jim Barry went at his training in earnest yesterday at Venice and besides a long run on the beach road in the morning, did an hour's exercising in the gym in the afternoon. He boxed twelve rounds, using Young Solomon, Jim Tremble and Bill Rose and finished strong. Barry was full of spirits and declared that he would get Sam's measure in the coming contest of twenty-five rounds and a new grade of red monkey, secured by John Jay White in British East Africa, in the summer of 1904, have been added to the collection.

Langford appeared before a big crowd at the track today.

PEN SHOP IN COAL FIELDS.

Colorado Operators Plan to Have Mines Running Full Capacity Soon.

(Associated Press Night Report.)

DENVER, April 6.—Operators in the Northern Colorado coal fields today reiterated their determination to operate their mines on a non-union basis.

Requests were made upon the Sheriffs of Boulder, Adams and Weld counties for deputies to protect the mines.

Steps will be taken immediately to install non-union pumpmen and engineers, and within a few weeks, it is planned to have the mines running full capacity.

MOTOR-MEET ENTRIES.

(Continued From Sixth Page.)

George Robertson, Simplex; Ben Kersch, Darracq; Ralph De Palma, Fiat; Mephistopheles; Ralph De Palma, Fiat.

Five-mile free-for-all, class E, best of three heats: C. S. Bragg, Fiat; George Robertson, Simplex; Ben Kersch, Darracq; Ralph De Palma, Fiat.

Five-mile free-for-all handicap, class D: Frank Leacut, Palmer-Singer; J. B. Marquis, Isotta; Barney Oldfield, Knox; Ray Harroun, Marmon; Al Livingston, Corbin; C. S. Bragg, Fiat; George Robertson, Simplex; Ben Kersch, Darracq; Ralph De Palma, Fiat.

Five-mile free-for-all, class D, J. B. Marquis, Isotta; Ray Harroun, Marmon; C. S. Bragg, Fiat; George Robertson, Simplex; Ben Kersch, Darracq; Ralph De Palma, Fiat; Scott Wade, Marmon.

PRIDAY, APRIL 15.

World's record trials—Ralph De Palma, half mile; Ben Kersch, one mile; Barney Oldfield, one kilometer; George Robertson, five miles; C. S. Bragg, five miles, amateur.

Twenty-mile stock chassis, class C, division 1, 150-200 cubic inches displacement—Nick Nikrent, Buick; L. J. Hampton, Ford; Bill Endicott, Cole; Arthur Miller, Warren-Detroit; O. C. Lindwall, Firestone-Columbus.

Ten-mile free-for-all, class D, best of three heats—J. B. Marquis, Isotta; George Robertson, Simplex; Ben Kersch, Darracq; Ralph De Palma, Fiat; Scott Wade, Marmon.

Ten-mile free-for-all, stock chassis, class E, under 500 cubic inches displacement—Harris Hanau, Apperson; Simplex; Bruno Siebel, Reo Bird; Ben Kersch, Darracq; Ralph De Palma, Fiat; Scott Wade, Marmon.

Ten-mile stock chassis, class C, division 1, 150-200 cubic inches displacement—Harris Hanau, Apperson; Simplex; Bruno Siebel, Reo Bird; Ben Kersch, Darracq; Ralph De Palma, Fiat; Scott Wade, Marmon.

Ten-mile stock chassis, class C, division 1, 150-200 cubic inches displacement—Harris Hanau, Apperson; Simplex; Bruno Siebel, Reo Bird; Ben Kersch, Darracq; Ralph De Palma, Fiat; Scott Wade, Marmon.

Ten-mile stock chassis, class C, division 1, 150-200 cubic inches displacement—Harris Hanau, Apperson; Simplex; Bruno Siebel, Reo Bird; Ben Kersch, Darracq; Ralph De Palma, Fiat; Scott Wade, Marmon.

Together Clash and Courts Will
Do the Rest.

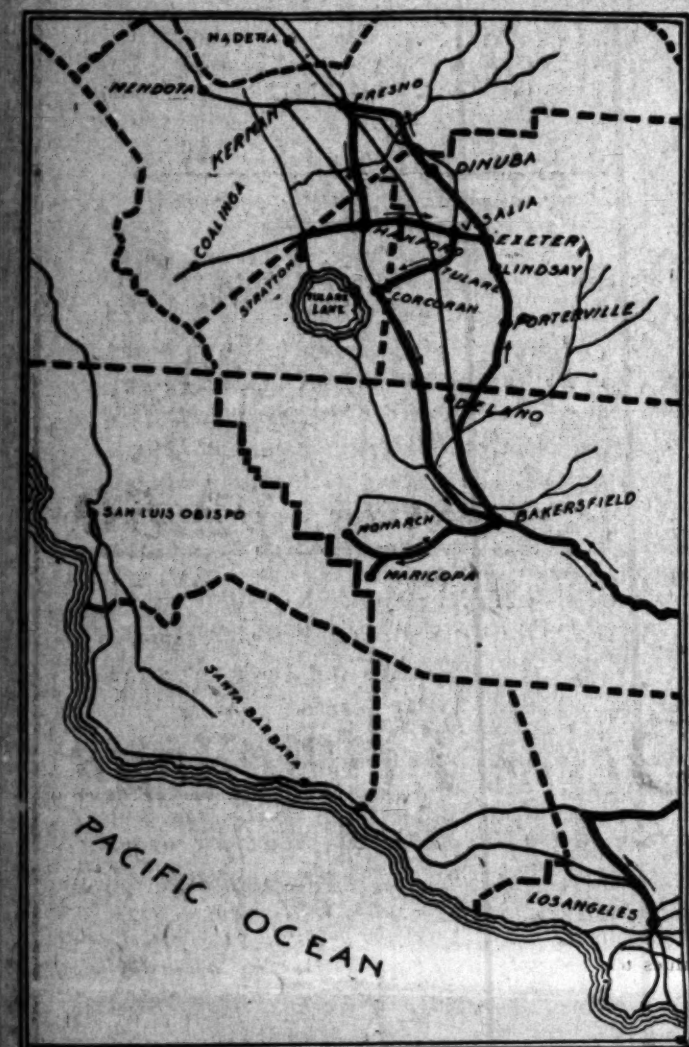

The joys of chicken ranching in the rural districts will be recited when Engelbert Dvorak of Hobart Station is taken before Justice Sumnerfield on a charge of having battered Joseph Schneider, his old partner, on the nose.

They had been the best of friends for several years until they went in business together last October. Schneider started the ranch and allowed his old chum to have a half interest upon the payment of \$150.

They could not agree as to who should drive the ducks to water and who should hunt the eggs, and in a short time decided to divide their interests. A fence was run directly through the center of their little plot of land. One by one the fowls were counted out and each took half of them.

Dvorak grew tired of following his chosen calling and offered to sell out to Schneider for \$150. The latter was willing to buy, but offered a smaller sum. Day by day the former partners found themselves glaring through the fence at each other.

The trouble came to a head yesterday morning, when Dvorak found that

San Joaquin Valley.

Localities and towns to be visited by The Times excursionists.

hination smoker will leave this city on next Tuesday evening, conducted by members of The Times staff, and will make a complete tour of this wonderful section of Southern California.

The accommodations of the train will be limited to 125 persons, more than one-half of whom have been booked during the first three days. The cost to each passenger will be but \$12.50, including three and a half days of sight seeing, berths on the train, and three meals a day throughout the trip.

The train will run absolutely on its own schedule, and will not lose an hour. To make the trip on regular trains would require not less than seven days, and probably more, and would cost at least three times the amount charged for this excursion.

In addition to seeing the great San Joaquin Valley, which is one of the most wonderful farming sections in the world, and offers rare opportunities to homeeekers, will be a view of other great natural resources. The excursion is not a real estate agents' scheme, and members of the party will not be harassed in that way, but is merely meant to demonstrate to them the possibilities that lie in this productive section, which will in the future be a densely settled region of prosperous people.

Beside the sights of the verdant valley and thriving cities scattered all around, a trip will be made to the world's greatest oil gusher, recently struck near Maricopa. The story of this wonderful well, spouting crude oil over 400 feet in the air, at the rate of 4,000 barrels a day, reads like a story of the Arabian Nights. In every direction, within a radius of two miles from the well, all nature is covered with a spray of oil, and the roaring of the monster can be heard at that distance, like the roar of a volcano.

The excursion will visit Porterville, Lindsay, Visalia, Exeter, Dinuba, Fresno, Hanford, Corcoran, Tulare, Bakersfield and Maricopa, at many of these places the party will be received by commercial bodies and escorted to places of interest.

Among other things to be seen will be the large sugar factory at Visalia, the great vineyards and packhouses at Dinuba, the raisin industry at Fresno; the million-dollar sugar factory at Corcoran; the splendid canneries and dairy interests at Tulare; the great oil district at Bakersfield, Monarch and Maricopa.

In fact, there will be so many unusual things to see and so much to astonish the excursionists that it will be impossible to enumerate them all.

It is desired to complete the reservations for the train as quickly as possible, in order that it may be known just how many will go, and at the rate at which they were made during Monday, Tuesday and Wednesday, the end of the week will see the list complete. It behooves those who wish to make the trip under such favorable conditions, to call at the Homeeekers' Headquarters in The Times business office without delay.

Celebration of the fiftieth anniversary of the nomination of Abraham Lincoln for President by the United States in Chicago, has been postponed for one year. This decision was reached Tuesday at a meeting of the Ways and Means Committee of the General Committee which has been in charge of the proposed event. It was said the time is too short to carry out the celebration on a proper scale.

his best rooster had disappeared. He decided that Schneider had taken it, and went to his yard to investigate. Schneider says he was struck on the nose and chased into the house with an ax.

He called at the District Attorney's office and was delighted when he found that he could pour out his troubles to Joseph Ford in his native language.

Dvorak will probably be arrested today on a charge of battery.

FOR INDUSTRIAL DISTRICTS.

W. I. Hollingsworth and F. E. Engstrom were appointed as a special Chamber of Commerce committee yesterday to act in conjunction with the Board of Public Works in drawing up a plan for the establishment of industrial districts here. The work was first started by the old Council. When the new members were elected they promptly decided that the Board of Public Works should handle the proposition, which entails much labor and investigation. The board, in turn, has requested the aid of representatives of some of the civic bodies.

Feet Tired-- So Tired?

TIZ Makes Sick Feet Well No Matter
What Ails Them.

TIZ acts at once and makes tired, aching, swollen feet remarkably fresh and sore proof.

It's the sure remedy, you know, for everything that gets the matter with your feet. It's for sore feet and for callouses and bunions, too.

For years I have been troubled with sore and swollen feet, suffered intense pains. Have had the assistance of physicians, but nothing worked a perfect cure, as it has with a great many of my friends. I would not be without it. And it requires to be known to be universally used.

TIZ is not a powder. Powders and other foot remedies clog up the pores. TIZ draws out all poisonous excretions which bring on soreness of the feet, and is the only remedy that does. TIZ cleans out every pore and stimulates the feet—your feet.

You'll never limp again or draw up your face in pain, and you'll forget about your corns, bunions and callouses. You'll feel like a new person.

TIZ is for sale at all druggists, 25 cents per box, or it will be sent you direct, if you wish, from Walter Luther Dodge & Co., Dodge Bldg., Chicago, Ill. Recommended and sold by The Owl Drug Stores.

CALIFORNIA OIL INVESTMENTS

California oil is profitable. Oil is the most profitable business, when handled as a business proposition, that exists.

The California oil fields are now in reach of the world, having excellent and well-organized means of transportation, both by land and sea.

The rapid change from coal to oil, the adoption of oils by the navies of the world, make overproduction impossible.

Thus, oil being cheaper and better than coal as fuel, being easily within reach of the world, and its apparent inexhaustibility, make a California oil investment the safest, most profitable and most shrewd.

California oil gives to the rich and poor alike a means of honest investment, which is found in no other business. The fairness of the oil operators and the conservativeness of the companies which we recommend make it possible for an investment of a few dollars to be as productive, in proportion, as an investment of millions.

For nearly two years we have been urging the investment of idle funds in the stock of carefully managed, listed, dividend paying California oil stocks.

Our clients, scattered all over the entire country, are receiving dividends at the rate of from 6 to 48 per cent per annum upon investments that they made through us.

The present intense interest in California oil is due entirely to the fact that California oil is making more money than any other industry in the State. Fortunes are being made. Many millionaires have been made from California oil. A new crop of millionaires will be made during the next few months. California oil will make these millionaires. You may not be able to make a million dollars, but you can have your share of California's oil prosperity.

We issue every week a newspaper called "The Oil Book," which tells in a clear, concise manner all about California's greatest industry. It contains much information of value pertaining to nearly all of the oil stocks of the State. We send this Oil Book free to any address upon request. Copies may be had at our office or by written request.

Premier Oil Company

We strongly advise the purchase of stock in the Premier Oil Company at present prices.

This company has a capital stock of 1,000,000 shares of a par value of \$1 each. The officers and directors are: Tim Spellacy, Pete Spellacy, J. D. Thompson, W. M. Wallace and Clarence J. Berry. These men are among the best known, successful oil men of the State.

We have acted as the exclusive financial agents of the company.

The holdings consist of a one-sixth royalty lease on 160 acres of absolutely proven oil land in the heart of the Coalinga district, the legal description of which is: S.E. Quarter of Section 24, Township 20, S. Range 14. The lease was secured from the Union Oil Company August 19, 1907, for twenty years, with perpetual rights of all oil produced from wells drilled thereon.

While some of our friends secured this stock at 10 cents per share in the summer of 1907, the stock is now selling around \$1.40 and \$1.50 per share. From this time it will advance more rapidly than ever before.

Twelve wells have been drilled and the monthly production at this time is about 65,000 barrels. Three wells are being drilled at a time. Forty wells should give the company a net earning capacity of \$100,000 per month, or 10 cents per share per month; this would be at the rate of 120 per cent. per annum on the par value of the stock. The company is already paying dividends from its net earnings, and these dividends will shortly be increased.

The stock is listed on the California Stock and Oil Exchange of San Francisco and its shares are dealt in daily.

We believe that the stock will advance to at least \$2.00 per share within the next 90 days, and we advise prompt action. You can make no mistake by buying Premier stock at present prices.

Section Six Oil Company

This company is incorporated with a capital stock of 600,000 shares, each of a par value of \$1.00. The company owns outright 43 acres of land situated in the famous Section Six of Coalinga and adjacent to the Silver Tip gusher. It also owns the Merrill lease in the Kern River district, 440 acres of patented land in the Devil's Den district and numerous other interests.

The stock is paying regular quarterly dividends of 1 per cent. on par, or 4 per cent. per year. This is an 8 per cent. investment at present prices. We believe that the dividend will be doubled in the very near future.

We advise the purchase of Section Six at present prices and will be glad to send detailed information upon request.

Mascot Oil Company

The Mascot Oil Company is incorporated under the laws of California, with a capital stock of 500,000 shares, each of a par value of \$1.00. The officers and directors are: Tim Spellacy, Pete Spellacy, J. D. Thompson, W. M. Wallace and M. B. Tuttle.

The company's holdings consist of a one-eighth royalty lease on 160 acres of land in the Midway district, known as the N.E. Quarter of Section 26, Township 32, S. Range East. The personal property on the lease is valued in excess of \$100,000, and 24 wells have been drilled with a production at the present time of 70,000 barrels per month. The company is earning at this time better than 3 cents per share upon the par value of all its stock. It is now paying regular monthly dividends, and these dividends will be increased from time to time.

We expect to see Mascot Oil stock sell at \$10 per share in the course of a short time. At present it can be bought at a price ranging between \$3 and \$4, although the company recently refused a million and a half dollars for the property.

The best known oil men in the State of California are managing this company along careful, conservative lines, and the stockholders are sure of a fair and square deal and their pro rata of the earnings.

We have consistently advised the purchase of Mascot, and we strongly urge its immediate purchase at any price under \$5 per share.

The stock is listed upon the California Stock and Oil Exchange of San Francisco.

Lincoln Mortgage and Loan Co.

622-623 Citizens National Bank Bldg.

Los Angeles, California

Yellowstone Oil Company

This company is incorporated with a capital stock of 1,000,000 shares, each of a par value of \$1. Its holdings consist of the ownership outright of 45 acres of patented land in the McKittrick district, 160 acres of land in the Maricopa district and adjacent to the famous Midway gushers. Four wells are now being drilled by the lessors upon the Maricopa holding. The company owns outright 20 acres of patented land in the Kern River district, which is only partially developed, and is already earning over \$4000 per month. These earnings will shortly be increased. Mr. Levi H. Hawley of San Francisco is president and H. B. Guthrey of Los Angeles is general manager.

We consider Yellowstone stock an exceptionally good offer and believe that before the end of this year it is destined to reach \$1 per share.

Detailed information with regard to this company will be mailed to any address upon request.

The stock is listed upon the Los Angeles Stock Exchange.

Cresceus Oil Company

This company is incorporated under the laws of the State of California, with a capital stock of 320,000 shares, each of a par value of \$1. The corporate holdings consist of a one-eighth royalty and perpetual lease on 40 acres of land in the Midway district. Six wells have already been drilled upon this land and the property is earning sufficient money at this time to pay one per cent. per month upon the capital stock. It is not paying these dividends, however, for the reason that additional development work is going on.

Well No. 7 is being drilled. This well is being drilled deeper than any of the others, it being the belief of the management that by doing so they will strike the oil sand from which some of the Midway gushers have gotten their great production. If a gusher should be brought in here (and it is not improbable) the price of this stock should jump to \$2.00 per share. If by drilling deeper they do not encounter these rich oil sands, the drillers will come back and take advantage of the oil sand which has already been penetrated, making another good, reliable producer, and the company can then go upon a dividend-paying basis immediately.

The officers of this company include such well-known men as Tim Spellacy, Pete Spellacy, A. L. McPherson, Jack Landgren and William Wallace.

The property is carefully and conservatively managed, and its shares are listed upon the California Stock and Oil Exchange of San Francisco. For a sure investment, with the assurance of dividends in the very near future and great speculative value, we advise the purchase of Cresceus oil stock.

Any further information cheerfully furnished upon request.

Illinois Crude Oil Company

This company has a modest capitalization of only 200,000 shares, each of a par value of \$1. It is operating a lease in the Kern River district and paying dividends of 1 cent per month upon the par value of the entire capital stock. Tim Spellacy is president and H. W. Thomas secretary of the company.

The stock is listed upon the California Stock and Oil Exchange of San Francisco, and is selling at about 54 cents per share.

It is planned to increase the holdings of the company at the next annual meeting, and we consider Illinois Crude a good purchase at present price. For immediate dividend returns there is nothing better on the market.

S. W. & B. Oil Company

This company is incorporated under the laws of the State of California, with a capital stock of 400,000 shares, each of a par value of \$1. Of this stock, 377,881 shares have been issued. L. P. St. Clair is president of the company; E. W. Kling, vice-president; H. W. Thomas, secretary. These men, together with H. A. Jastrow, J. Benson Wrenn and M. B. Tuttle, comprise the board of directors.

This stock has been purchased by such men as L. P. St. Clair, president of the Independent Oil Producers; E. W. Kling, of the King Lumber Company; C. J. Berry, of the Ethel D. of California; Tim Spellacy, president of the Premier Oil Company and Mascot Oil Company; Holmes Henshaw, Coalinga oil operator; J. Benson Wrenn, Traders' Oil Company; and Walter Snook, of the famous Snook property of Maricopa.

The holdings consist of a one-sixth royalty lease on 40 acres of land located in Section 6, Township 20, Range 15, Coalinga. The present earnings are sufficient to pay 2 per cent. per month dividends upon the capital stock. However, two more wells are to be drilled before dividends begin. It will take sixty, possibly ninety, days to complete these two wells, and the company then will undoubtedly be able to pay a dividend of at least 2 per cent. per month.

The company has cash on hand and oil in storage valued at about \$15,000. It is carefully and conservatively managed. Stock is selling at the present time at between 70 and 80 cents per share. We believe that it will advance to \$1 within the next three or four weeks, and we can conscientiously advise the purchase of S. W. & B. at present price. Full particulars will be mailed upon request.

If convenient, call at our office and get all the facts pertaining to any of the above-mentioned stocks, or any other legitimate California oil stocks. We will promptly execute orders received by wire or letter for any oil stocks listed either upon the California Stock and Oil Exchange of San Francisco or Los Angeles Stock Exchange. Prompt and careful attention will be given to any business entrusted to us, whether small or large.

Our clients are making money. They are receiving dividends. You can make money by buying the better class of legitimate, listed California oil stocks.

We will cheerfully furnish any information that you may wish. Letters or telegrams promptly replied to. Correspondence invited.

OIL WELLS OF THE DENVER AND MICHIGAN OIL COMPANY

PRIVATE BANKS RUSH.
In the meantime, private banks have been doing a similar business. Among those designated especially for this purpose may be mentioned the Meritbank, a bank with American institution; the International Mortgage Bank of Mexico (Banco Internacional de Hipotecas de Mexico), controlled by Mexican and American capitalists; and the Compania Banquera de Fomento y Crecimiento (Compania du Mexique), Mexican, French, The last does a large business outside of Mexico, banking. Under its charter it deals in heavily landed estates, erects good houses in Mexico City for sale on the installment plan, and also assists in the sale of real estate.

The company has three departments, banking, promotion and construction, and a real estate department. The last is under separate management, and the whole is under a board of directors.

Los Angeles County Correspondence from Its Cities and Towns.

NEWS REPORTS FROM CORRESPONDENTS OF THE TIMES.

PASADENA TO HAVE DEPOT.

Pacific Electric Company to Erect Structure.

Plans for a Proposed Bridge Are Received.

High School and Playgrounds Interest Voters.

Office of The Times, No. 26 S. Raymond Ave.

PASADENA, April 7.—It has been definitely announced that the Pacific Electric Company will build a large waiting room and depot adjoining the car barns on North Raymond avenue and Mary street. The main entrance to the depot will be on Raymond avenue opposite the library park.

All cars will probably be run around the loop, up Raymond avenue, across to Fair Oaks avenue, through the train shed, discharging and taking on passengers in the train shed, and will pass out and south on Fair Oaks avenue.

It is likely that all cars, including the Pasadena local cars, will pass through the depot, which will be the general transfer station for all points.

The matter of providing rest rooms and waiting rooms has been agitated for some time by Mayor Farney and the Council. It was announced some time ago that a large waiting room would be established in the Dodsworth building at the corner of Fair Oaks avenue and Colorado street, but the Pacific Electric Company was unable to make a satisfactory lease. Other locations were discussed, and at last the company has decided to build at the car barn.

The general plan for the new building provides for a commodious waiting room, ladies' waiting and rest room, smoking room, lunch counter, reading room, news stand and all conveniences for the traveling public. Such a building is needed and will add greatly to Pasadena as a residence city and tourist resort.

GETS BRIDGE PLANS. William F. Knight, chairman of the Board of Trade Arroyo Seco Bridge Committee, accompanied by three members of his Executive Committee, had an extended conference with the Angeles County Highway Commission yesterday afternoon regarding the proposed Arroyo Seco bridge.

Knight brought back the Highway Commission's plans for the proposed "low bridge," which plans are favored by the commission.

The plan provides for a reinforced concrete bridge 425 feet long, with approaches, and the center will be 45 feet above the present Scoville bridge.

The cost of the bridge, including the cost of the approaches at either end of the bridge, the commission has a fund of \$10,000 set aside from the \$100,000 county road-building fund for improvements on the Arroyo Seco bridge. This fund can be used either to improve the present Scoville bridge, to apply on the building of the "low bridge," or toward any other bridge the commission cares to consider.

It is estimated that it will take about \$10,000 to build the west approach to the "low bridge," leaving the balance of the cost approach, which will be inside the city limits of Pasadena, to the city. It is estimated that the county supervisors will make an appropriation to pay a part of the \$20,000 necessary to build the "low bridge," as planned.

Chairman Knight turned the plans over to City Engineer Van Ornum last night with the request that he figure out exactly the cost of building the east approach, including in his specifications the cost of building a bridge to the approach, cost of the land to be acquired and the grade to the approach.

With this information Mr. Knight and his committee will call on the supervisors, and they will then report to the Board of Trade the entire proposition. In the meantime he will get all the data together on the proposed "high bridge," which latter project is generally favored by Pasadena, providing the bond issue necessary to pay Pasadena's portion is not too much. A rough estimate of the cost of the high bridge is \$100,000.

The building of this bridge is a very important matter to Pasadena because it will form the connecting link in the proposed Los Angeles county highway scheme, connecting the city with Glendale and on to Santa Barbara, or branching off at Tropic, going to Hollywood and Santa Monica. The bridge will place Pasadena in immediate touch with the San Fernando Valley and the ocean.

TO BUILD HIGH SCHOOL. Pasadena is well launched on an era of big public improvements. Two propositions will be determined this spring. One is now before the voters and will be decided on the 29th inst. It is the buying of a high school site and building a big modern high school building, the entire cost to be \$500,000. There is much speculation as to whether the bonds for that amount will carry, but inasmuch as bonds for school purposes seldom fail to carry, it is generally believed the proposition will be favored.

The other proposition for beautifying the city is known as the "Carmelita proposition." It includes buying the Carmelita Gardens, now lots on Kensington place, adjoining the playgrounds, building a convention hall or casino, and buying the Monk Hill property for an additional playground for North Pasadena.

WILL TRANSFER TITLE. The majority two-thirds of the stockholders of the Annandale Country Club holding company have agreed on the new financial plan of the club, and at the annual meeting on the 15th inst. the final step will be taken to transfer the title to the clubhouse and grounds and the beautiful golf course, from the holding company to the Annandale Country Club.

In order to get the Annandale Country Club on its feet at the time it was organized, several of the members organized a holding company. They bought the building site, built the clubhouse and bought the grounds for the golf links. The grounds were then

MUCH NEEDED.

leased to the club for a term of years on a basis equal to 5 per cent. of the investment.

The club prospered, but furnishings of all kinds became a necessity, and all the surplus, about \$30,000, taken in in dues, went into improvements about the clubhouse and golf links. The popularity of Annandale, located between Pasadena and Los Angeles, has been duly manifested. The charter of the club provides for a resident membership of 500, after which time all applicants for membership must go on the waiting list. The full membership of 500 was reached several months ago, and today there is a good waiting list. In addition there is a non-resident membership of about 100.

Interested members realized some time ago that the club should become a permanent organization, and the title to the ground must become vested in the club, else at the end of the present lease the members of the holding company might not renew the lease on account of the increase in the value of the ground.

The original cost of the grounds was \$115,000, and the accrued interest to date, at the rate of 5 per cent., is now \$7,500, making a total of principal and interest, of \$122,500. The new proposition is to transfer the title to the property to the club, and issue bonds to members only, to the extent of \$122,500, the club agreeing to pay an annual interest of 5 per cent. on the bonds.

The members of the holding company can either take bonds for their stock in the old company or cash for their shares. The \$122,500 worth of bonds has been oversubscribed. The club wants to buy some small pieces of adjoining land and also make some additional improvements, and the latest proposition is to make the bond issue \$200,000, applicable to the bonds for the club, and a waiting list for the club, to be closed at the annual meeting.

PLAYGROUNDS CHANGE. Superintendent Ryerson of the Carmelita Playgrounds announced last night that the playgrounds of the public schools will be done hereafter on Tuesday and Thursday evenings of each week. All athletic work will be done on Monday and Wednesday evenings. Mr. Ryerson is compelled to devote his entire time to other work. This extra work will be done by the regular field day play of the children who visit the playgrounds daily.

One of the largest parties of the season was given yesterday afternoon by Mrs. George Gregory at the Hotel Maryland. Over 200 guests were present.

TO GET WATER MAP. Mayor Earley yesterday received a letter from Senator Flint stating that George Otis Smith, director of the United States Geological Survey, has promised to give instructions at once to prepare a statement showing the surface and underground water supply along the foothills from the San Gabriel Valley, also to show the extent of the water supply for Pasadena and the various foothill cities, as it will show conclusively how much water can be developed.

Artist's materials at Wadsworth's. Hotel Maryland and Maryland bungalow are the scene of a busy day. Phelps for wall paper and paint.

Hotel Vista del Arroyo, New annex, Bungalow. Unexceptional environment.

One yard free with every 10 or 12 yard pattern bought on Thursday of printed battiste, dimity, woven ginghams, striped or checked white goods, at Hertle's.

Hotel Mira-Monte. Centrally located, Pasadena.

NEW CHAPTER HOUSE PLANS. American Women's League at Pomona is Pleased With Proposed Building.

POMONA, April 6.—The local chapter of the American Women's League has about 100 members, and is still growing. At a meeting last night, presided over by the new chapter, held at the erected here at a cost of \$1500 at Holt avenue and Huntington boulevard in the Ganesha Park tract, were inspected. The plans submitted by the local committee to the league headquarters in St. Louis have been accepted with commendation.

ANNUAL AFFAIR.

SISTERHOOD IS IN CONVENTION.

CALIFORNIA GRAND CHAPTER OF P.E.O. MEETS.

Conference Between Long Beach City Council and Pacific Electric Railway Officials Is Not Productive of Results in Five-Cent Fare Question—Autist Is Fined.

LONG BEACH, April 6.—The seventh annual convention of the California grand chapter of the P.E.O. Sisterhood opened this evening at the Elbell Club house. Yellow and white are the P.E.O. colors and the clubhouse is aglow with wild mustard bloom and calls to date, at the rate of 5 per cent., is now \$7,500, making a total of principal and interest, of \$122,500. The new proposition is to transfer the title to the property to the club, and issue bonds to members only, to the extent of \$122,500, the club agreeing to pay an annual interest of 5 per cent. on the bonds.

has obtained a permit and started work on the construction of a concrete transformation house on Lake street.

The organization of a Young People's Branch of the Woman's Christian Temperance Union has been completed here, with fourteen charter members. The meeting at which the society was formed was attended by Miss Mary Stewart, State organizer. The next regular meeting of the society will be held on the first Monday in May.

The Court of Appeals having decided to grant a rehearing on the Jones-Dudley majority contest, there will be no record of the ballots by the Superior Court on the 12th inst., as had been contemplated. Mayor Dudley's attorneys contend the majority of the ballots had no jurisdiction in the matter of a recount as affecting chartered cities, and for the acceptance of the writ of prohibition. The appellate court held last week that the superior court had jurisdiction, but upon the citation of amended statutes on the subject a rehearing has been granted.

BRIGHT PROSPECTS. The junior class of the High School has organized for the year with the following officers: Palmer, president; Florence Judkins, vice-president; Clark Swan, secretary; Frank Kleider, treasurer.

It is understood that the proposition to annex a portion of the Arroyo Seco to Los Angeles, which was held in abeyance for some time, has been revived. Should this proposition carry before the bridge negotiations are completed it probably will interfere greatly with the plans for obtaining that important improvement, as the county would be cut out from all participation in the cost. However, the bridge advocates are pushing their project with all the vigor at their command.

SOLDIERS' HOME. George F. Rogers of Los Angeles has been appointed superintendent of the new Soldiers' Home, which has been added to the Home's industries. The building, just completed, is equipped with every modern appliance for dry cleaning, and will be put in operation at once.

Howard Young of this place has been appointed United States census enumerator for the National Home district.

RECEDE DEATHS. Perry Goodrich, 82 years of age, late United States Navy (Mexican War), native of Vermont, admitted from San Diego in 1902; died at Riverside, April 1, while on furlough.

Hugh P. Bufon, late Co. K, Fifty-fourth Illinois Infantry, native of Illinois, admitted from San Diego in 1910, from San Diego, died, April 4, aged 63.

Fire yesterday destroyed three buildings at North Powal, Vt., causing a loss of about \$75,000. Among the buildings destroyed was the Congregational church in which former President James A. Garfield taught school, while a student at Williams College.

DEPENDABLE PROPRIETARY MEDICINES. It must be admitted by every fair-minded, intelligent person, that a medicine could not live and grow in popularity for thirty years and today hold a record for thousands upon thousands of actual cures, as has Lydia E. Pinkham's Vegetable Compound, without possessing great virtue and actual worth. Such medicines must be looked upon and termed both standard and dependable by every thinking person.
